

## Whats New in New Mexico

### WALTON TO BE NEXT CHAIRMAN IF HE CHOOSES

Grant County Man Recognized as Logical Leader of New Mexico Democrats and a Winner Is Wanted.

(SPECIAL DISPATCH TO MORNING JOURNAL)  
Santa Fe, Feb. 2.—So intently have the eyes of the people of the state been turned on the doings at the legislature that the announcement of a special called meeting of the democratic state central committee to be held in Santa Fe on February 12 did not attract anything like the attention that it deserved.

Just who inspired the call it would be hard to say, but it is no secret that there is a feeling among the untiring of the state that if the party is ever again to enjoy the comfortable feeling of being on the inside looking out it must pick somebody to lead it who can give some evidence of leadership.

Rumor, which sometimes is wrong but often is right, has it that the meeting is called for the purpose of accepting the resignation of Chairman James H. Paxton. It is pointed out by leading democrats that in a campaign where everything favored democratic victory, and where it seemed that the re-election of Congressman Ferguson was a foregone conclusion, the democratic party, last year, was defeated by a bigger majority than has been given any candidate for office since New Mexico was admitted to statehood.

**Walton Looms Up.**  
In casting about for a successor to Mr. Paxton the democrats can see only one figure on the horizon, and that is Senator W. B. Walton of Silver City. Mr. Walton has at all times kept his party regularly on straight, and besides that he has shown ability as a leader that has not been equaled by any other democrat in New Mexico. This is illustrated by the fact that in a year of general democratic disaster, Grant county turned up a majority for all the democratic candidates which was unprecedented in the history of the county.

There is only one question—will Walton accept? If he will, the chairmanship is his. Mr. Walton, however, has extensive business interests, and it is said he is averse to getting any deeper into politics than he already is. The meeting to be held on the 12th, at all events, is sure to be one of the most fatal for the democracy that has been pulled off yet.

### APPROPRIATION ASKED FOR SEMI-CENTENNIAL OF FREEDOM OF NEGRO

(SPECIAL DISPATCH TO MORNING JOURNAL)  
Santa Fe, Feb. 2.—A plea for an appropriation by New Mexico for the celebration to celebrate the half-century anniversary of negro freedom in the United States, was received today by Governor McDonald from the Illinois commission in charge of the celebration at Chicago. Illinois has voted \$25,000 and the governor of Iowa in a message has advocated an appropriation by that state. A bill for a \$5,000 appropriation for that purpose has been introduced in the New Mexico legislature.

Says the governor of Iowa in his message: "Emerging from slavery almost helpless, penniless, homeless, ignorant, they now, about ten millions of them, are taxed on a billion dollar worth of property, thousands of them have good homes, literacy is reduced from a total of 35 per cent, many of them are succeeding in very many lines of business, professional and otherwise, and large numbers of them are excellent citizens."

### SOLONS ALREADY HAVE EXCUSE FOR THEIR SALARIES

That Is, if They Keep Up the Good Work and Put Through the Minimum Seven Months' School Bill.

(SPECIAL DISPATCH TO MORNING JOURNAL)  
Santa Fe, Feb. 2.—If the present legislature accomplishes nothing more than increasing the minimum term of the public schools from five to seven months, as provided in Senate Bill No. 75 passed by the senate this afternoon, it will have more than justified the session. Those who have given the subject any study predict that it will revolutionize industrial as well as educational conditions in New Mexico and will eventually add enormously to the wealth of the state by fitting its boys and girls to cope with modern industrial demands.

The bill introduced yesterday by Teofilo Chavez y Luna and numbered House Bill No. 132, provides for a maximum rate of three cents a mile for passengers on New Mexico railroads. It also provides that within thirty days after the act goes into effect, trains must be run on time unless prevented by act of God or the public enemy, must furnish sufficient care for seating all passengers. A maximum penalty of \$1,000 is fixed for violations of the act.

Senate Bill No. 92 by Holt, prescribing the duties of secretaries, treasurer of state institutions fixes the salary company bonds to be given by them as follows: State college, \$75,000; University, \$20,000; School of Mines, Normal university, Normal school, Military institute, Insane asylum, Deaf and dumb asylum, and Miners' hospital, \$10,000 each, which amount, however, may be increased by the governing boards of such institutions.

House Joint Resolution No. 7, by Bryant, providing for an amendment to the constitution, would reduce the salary of district judges from \$4,200 to \$2,000 a year. It was referred to the committee on judiciary.

**Crampton Has Mining Bill.**

Senate Bill No. 79, by Crampton, amending Sections 54 and 72 of Chapter 79, laws of 1914, relative to the formation and government of corporations for mining, manufacturing, industrial and other purposes, gives exclusive original jurisdiction to the district court of the county in which the principal office of the corporation is located, upon applications for reorganization. Any creditor or stockholder may by complaint apply to the district court for an injunction and the appointment of a receiver or trustees, and the court may proceed in a summary way to hear the affidavits, proofs and allegations and it may secure an injunction to restrain the corporation and its officers from exercising any of its privileges or franchises and from collecting any debts or paying out any of its funds, etc., except to a receiver appointed by the court.

Senate Bill No. 87, by Alldredge, relating to the liability of common carriers by railroad for injuries or death sustained by their employees, provides for compensation for injuries or death caused through negligence in whole or in part of any officer or employee or agent or by reason of insufficiency of equipment or defects in safety appliances, the carrier being presumed to have had knowledge of such defect, inefficiency or lack. Contributory negligence shall not be a bar to a recovery but may be pleaded to diminish the amount of damages. Employees shall not be held to have assumed the risk of their employment, nor can they contract away their rights to damages. All actions for damages must be commenced within three years from the date of the accident, or when the cause of action accrued.

### PRIZES ARE OFFERED FOR DOMESTIC SCIENCE AND MANUAL TRAINING

(SPECIAL DISPATCH TO MORNING JOURNAL)  
Santa Fe, Feb. 2.—Sixty-three prizes are offered by the Santa Fe Woman's club and local merchants for domestic science and manual arts exhibits at the display to be made this month in the National Guard armory by the rural schools of the county.

Forty-three booths will be erected and no one district will be without an exhibit. Every article to be displayed must be useful and a rigid censorship is being exercised as the space is insufficient for the exhibits already prepared, although the auditorium is one of the largest in the state. Every teacher of the county will be in attendance and the Santa Fe Woman's club plans a luncheon for them. They are to have the use of their lives and Santa Fe hospitality is to be forever a vivid remembrance to them.

The women of the state are imbued with the idea that the teacher is the most important person of the commonwealth, judged both by present attainments and future results and that the country school superintendent is their general, upon whose generalship depends very much whether the battle against ignorance, illiteracy is to be won now or a decade hence. The general should have a general's pay and certainly as much as a mere county treasurer or county clerk, with nothing but clerical duties and ample allowance for expenses. In Santa Fe county, for instance, it is due to the county school superintendent that forty-two modern school houses were built the past year each equipped with domestic science and manual training rooms. It is he who is placing a public library in each school house, is arranging for night schools in every district so that the parents may learn to read, write and "figger." It is he who is increasing the earning powers of the coming generation by at least 100 per cent and who first advocated the minimum seven months' school term. What other official be it treasurer, assessor, clerk, sheriff, has done one-tenth as much for the people or the commonwealth? And why shouldn't he be paid at least as much as these other officials? Is the question that the women, the mothers of the school children are asking legislators.

### DEPUTY SHERIFF NO BETTER THAN SCHOOL TEACHER

Educators Can't See Why All the Money Should Go to Politicians in Salary Laws Being Considered.

(SPECIAL DISPATCH TO MORNING JOURNAL)  
Santa Fe, Feb. 2.—"It will do New Mexico no good to let it go abroad that its legislature thinks less of the services of its county school superintendents than it does of its deputy sheriffs and is willing to pay a bigger salary and greater allowance to the keepers of its jails than to the superintendents of its county schools," is the way that the executive committee of the state teachers' association put it today.

However, the committee is confident that the legislature will place the salary of the county superintendent on the same level with those of the assessor, sheriff, treasurer and county clerk, for he is as important an official as any of these and if he is of the right caliber, works twice as hard as any other officer. "The people do not want the county superintendent to be in politics," says the committee, "and they will certainly

resent punishing the superintendents for keeping out of politics."  
The members of the committee are determining the stand of each member of the legislature on the question of basing the county superintendents' adequate salaries and giving them an allowance for traveling expenses. In nearly every instance today, they met with a favorable response and both republicans and democrats appeared to be eager to give the superintendent a square deal. Yet, in all but one of the pending bills, six in number, the county superintendent is ranked of about the same importance as the deputy sheriff and far below assessors, sheriffs, county clerks and treasurers.

It is encouraging, however, to know of the unanimity of the 2,000 teachers in the state whose influence in every precinct cannot be gauged, in favor of good compensation for the county superintendents. As to traveling allowances, the instance of Miss Eckels in Grant county need not be cited who had to pay about \$100 for a single visit to the schools in southwestern Grant county. Superintendent of Public Instruction Alvan N. White has received to date the reports of sixteen county superintendents, telling in detail of their school visits the past year and in the aggregate they represent a trip "around the world as far as mileage is concerned and an expenditure of thousands of dollars for the public good for which no official allowance is made."

**NOTICE OF SALE.**  
At 1 o'clock in the afternoon on Wednesday, the 10th day of February, I will sell to the highest bidder the personal property, belonging to the estate of John T. Bent, deceased, at the ranch of John T. Bent, deceased, in the town of "Los Lunas," county of Bernalillo.

### SANTA FE MERCHANTS ENTERTAINED BY WOMEN

(SPECIAL DISPATCH TO MORNING JOURNAL)  
Santa Fe, Feb. 2.—"It was a great meeting," according to the declaration both of the members of the Santa Fe Merchants' association and of the Santa Fe Woman's club, who met this afternoon, the gentlemen, the guests of the ladies, in the assembly room of the Palace of the Governors.  
Mrs. Jacob Weltner read a paper on "Local Markets and Prices" and in the discussion that followed, the business men and the ladies spoke very frankly and freely, giving tit for tat and a "Roland for each Oliver." The discussion proved informing, if nothing else. The meeting was under the auspices of the house and child welfare committee, and was presided over by Mrs. L. C. Collins. During a business meeting of the club, presided over by Mrs. Pallen, arrangements were completed for the rural school exhibit this month. Tea was served after the meeting in the Rite de los Prioloque room. Piano solos by Mrs. G. P. Harrington were given deserved applause.

**WINTER DOUBLES WORK.**  
In summer the work of eliminating poisons and acids from the blood is helped by perspiration. In cold weather, with little out door work or exercise to cause sweating, the kidneys have to do double work. Foley Kidney Pills help overworked, weak and diseased kidneys to filter and cast out of the blood the waste matter that causes pain in sides or back, rheumatism, lumbago, stiffness of joints, sore muscles and other ills resulting from improper elimination. For sale by Bolt's, Inc.

Wanted—Clean cotton rag at the Journal office.

### KORBER'S GARAGE NOW READY FOR BUSINESS

The "Korber's Garage," 214-216 North Second street, under the management of Albert Korber, is now open for business. The equipment of the garage is so complete that an automobile can be overhauled thoroughly, including the adjustment of carburetors, painting and wood working. Everything about a machine can be done, and that includes the wood work and painting, without leaving the establishment, thus placing the personal supervision of the management of the garage before being turned over to its owner. All work guaranteed to be first-class and patronage solicited.

**For Care of Lepers.**  
Santa Fe, Feb. 2.—Governor McDonald today was officially informed that the California board of health in its petition to congress for the establishment of a Leprosarium, asks that such an institution take care of the lepers of California, Oregon, Washington, Nevada, New Mexico, Arizona and Hawaii. However, New Mexico has no lepers. Its altitude, salubriousness and general climatic conditions is not permit leprosy to develop. For that reason, an effort was made some years ago to establish a sanatorium for lepers at Fort Stanton over the protest of New Mexico's delegates in congress.

**Visitors to Museum.**  
Santa Fe, Feb. 2.—Among those who registered at the New Mexico Museum today were, Mrs. W. A. Gunn and Mrs. Anna D. House of St. Louis, Mo. and Mrs. O. B. Barckson, of Fort Morgan, Ar. P. Henshaw, of Yuma, Ar. Blackwell, of Nitro, J. M. Cunningham, of East Las Vegas, and Louis Schuler, of San Antonio.

A Sure Way to End Dandruff

There is one sure way that has never failed to remove dandruff at once, and that is to dissolve it, then you destroy it entirely. To do this, just get about four ounces of plain, common liquid arsenic from any drug store (this is all you will need), apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.  
By morning, most if not all of your dandruff will be gone, and three or four more applications will completely dissolve, and entirely destroy every single sign and trace of it, no matter how much dandruff you may have. You will find all leading and drug stores of the world will also distribute, and your druggist will be glad to advise you, and will be glad to send you a bottle of this dandruff.

# Semi-Annual Clearance Sale

Bargains and Values Offered---Bigger and Better Than Ever Before
